CAR and CHILD RESTRAINTS CHECK

Where an educator's motor vehicle is used to transport Family Day Care children, it must be in safe mechanical order.

The vehicle must be registered and maintained to roadworthy standards.

The vehicle must have appropriate child restraints for the age/weight/height for the child being transported and each restraint must be properly secured in accordance with Legislation/Australian Standards.

Educators are required to have car and child restraints checked annually and a current copy supplied to the Service.

Educator Name: _____

Please ensure that all car restraints are correctly installed into the vehicle.

Take this form to the approved restraint check person to have them sign off on it.

Vehicle Make and Model: _____
